Summary

Final-year B.Tech CSE student at **Rajasthan Technical University, Kota**, skilled in **MERN stack** development and **Data Structures & Algorithms**, with hands-on experience building responsive full-stack web applications.

Education

Rajasthan Technical University, Kota **Sept. 2023 – May 2027**

B.Tech. Computer Science Engineering

Experience

CodTech IT Solutions Pvt. Ltd. **May 2026 – Jul. 2026**

Backend Web Development Intern *Remote*

- Built a **secure backend banking API** with **Node.js, Express.js, and MongoDB**, exposing RESTful endpoints for account operations, authentication, and transaction handling.
- Implemented **JWT authentication, role-based access control, and centralized error handling**, improving API reliability and reducing unhandled exceptions.
- Added **input validation and sanitization** across endpoints to prevent injection attacks and malformed data from reaching the database layer.

Projects

Vibe Code IDE | *Next.js, TypeScript, TailwindCSS, Monaco Editor, MongoDB, Docker, Hugging Face*

- Built an **AI-powered browser IDE** that runs code across multiple programming environments, with an interactive **xterm.js terminal** for real-time compilation and execution.
- Architected a **modular application** (authentication, file management, GitHub repository import, project templates), improving maintainability and **cutting bug resolution time by 25%**.
- Developed **AI code autocomplete** and an intelligent chat assistant powered by the **gpt-oss 20B** model.
- Designed a responsive, modern UI using **Next.js and Tailwind CSS**.

Testman | *Next.js 15, TypeScript, PostgreSQL, Prisma, Zustand, TanStack Query, shadcn/ui, Tailwind CSS*

- Built an **API and WebSocket testing platform**: a REST client supporting all HTTP methods, params, headers, and raw JSON bodies, with pretty-printed responses showing status, time, and size.
- Integrated **AI-powered features using Gemini 3.8** to suggest request names and generate JSON queries for request bodies.
- Implemented **request collections, history, and response persistence** for reusable testing workflows.
- Added **collaborative workspaces** with invite links and role-based access (Admin/Member), secured with **Better Auth**.

Chatty | *React, Node.js, Express, MongoDB, WebSocket, Tailwind CSS*

- Engineered a full-stack **real-time messaging app** supporting instant message delivery, live online/offline presence tracking, and persistent chat history via **WebSockets and MongoDB**.
- Implemented **authentication and session handling** to secure user accounts and protect API routes from unauthorized access.
- Architected a **modular React component structure** to keep the UI responsive under frequent real-time state updates.

Technical Skills

- **Programming Languages**: C++, Java, JavaScript, TypeScript
- **Web Development**: React.js, Next.js, Tailwind CSS, Node.js, Express.js, REST APIs, JWT Authentication
- **Databases & ORM**: MongoDB, PostgreSQL, Mongoose, Prisma ORM
- **Tools & Technologies**: Git, GitHub, GitHub Actions, Postman, Docker, VS Code
- **Core Concepts**: Data Structures & Algorithms, OOP, DBMS

Extracurricular Activities

- Solved **400+ LeetCode problems** with a contest rating of **1480**.
- Represented the school and university football teams (**Rajasthan Technical University, Kota**); **two-time district champion** in interschool tournaments.
